LISTA – WHERE TRADITION MEETS INNOVATION

For over 80 years, we at **LISTA** have been shaping the world of storage and business equipment with premium, pioneering innovations and comprehensive expertise. What began as a small workshop in Switzerland is now a world leading company with a versatile product range for the highest of demands. Our modern production facilities in Switzerland and Germany manufacture durable solutions for industry, trade and commercial operations. Dive into the world of LISTA and discover how we are revolutionising the meaning of good order.

Design

We develop customer-oriented and bespoke solutions with carefully thought-out designs that enhance everyday work

Planning

Every business has its own unique requirements. We plan made-to-measure solutions tailored to their individual needs

Production

Quality starts in production. In our production facilities, we rely on precision and state-of-the-art technology

Sustainability

Sustainability is more than just a goal for LISTA – it has been a key principle since the 1970s and we have been taking responsibility for it ever since

THE LISTA SYSTEM FOR ALL INDUSTRIES

LISTA products are extremely versatile and can be found in a wide variety of areas and industries. We have assigned some typical examples of our products to specific applications. The modular system is typical of LISTA, with each customer solution being individually tailored to operational requirements. There are no limits to your imagination, so take a look at what others are doing with our products and be inspired. We will be happy to advise you and plan the right solution for you.

DRAWER CABINETS

LISTA drawer cabinets offer sturdy storage options with ideal protection for operating materials and warehouse goods of any kind. Thanks to their high-quality workmanship and versatile configuration options, they adapt effortlessly to different requirements and environments. The intelligent design maximises storage space, while variable partitions, smart labelling and access controls ensure maximum flexibility. This combination of quality and adaptability makes our cabinets true all-rounders for professional use.

Iconic

A classic product with timeless design and carefully thought-out functionality with premium standards of quality

Configurable

Countless configuration options in terms of size and equipment for meeting individual requirements

Optimised utility

Optimum use of space combined with 200 kg load capacity per drawer and perfect accessibility thanks to 100% full extension

Resistance

Housing with 4 tonnes of load capacity, robust coatings and high-grade steel make for a durable product

WORKBENCHES AND WORKSTATION SYSTEMS

With **LISTA move workbenches and workstation systems**, we offer solutions that meet every need: With their modular structure, they can be flexibly adapted to cater to individual requirements. At the same time, their ergonomic design and high level functionality make the workstations particularly neat and efficient. LISTA workstations help to achieve a smooth workflow over the long term, significantly reducing the risk of errors and increasing productivity – even in special environments such as lean production and ESD areas.

ESD protected

Protection of electronic components against electrostatic discharge

Modular

CABINET SYSTEMS

HINGED DOOR AND VERTICAL PULL-OUT

Versatile **LISTA cabinet systems** bring structure to everyday life – with reliability, flexibility and security. They adapt to any environment and grow with the demands placed on them. Sophisticated accessories and clever modules create space for everything that matters. From drawer partitioning or a pullout suspension filing frame – everything fits. Vertical pull-out systems make optimum use of even the smallest areas and ensure that everything is quickly at hand. This creates a system that simplifies organisation and noticeably improves work processes.

Stable

Maximum stability of up to 1500 kg and a high load capacity up to 200 kg for pull-out shelves

Accessible

Vertical pull-out mechanism for easy access to large parts

Versatile

The right cabinet for every need: storing everything from files to liquids

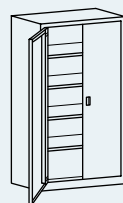

Secure

Impressive security thanks to intelligent locking systems

CABINET SYSTEMS

SLIDING DOOR, ROLLER SHUTTER, LOCKERS AND COMPARTMENT CABINETS

With intelligent locking systems and customisable interior fittings, **LISTA cabinet systems** ensure safety and order. The flexible LISTA sliding door cabinet solutions are perfect for limited space, as the sliding doors do not protrude into the room. LISTA roller shutter cabinets are ideal for convenient access to stored items, even in small rooms. LISTA coat lockers offer optimal storage space for personal protective equipment and clothing, while LISTA compartment lockers provide an efficient storage solution with multiple compartments.

Personal

Safe storage of personal belongings

Space-saving

SHELVING SYSTEMS

LISTA shelving systems offer flexible solutions for every storage requirement – from files to tools or samples. With a high load capacity, robust construction and well-thought-out design, they create order and make optimal use of the available space. From versatile universal shelving to specialised systems such as rolling, sliding or heavy-duty shelving for heavy-duty items: LISTA shelves adapt to any environment and ensure safety, clarity and efficient processes in everyday work.

Extendible

Subsequent expansions according to individual requirements

Specialised

Rolling and sliding shelving for space-saving storage in warehouses and archives

Multi-functional

Tailor-made solutions, even for special applications such as heavy loads, cantilevers, pallet racks, etc.

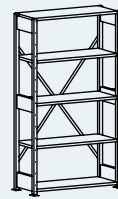

Resilient

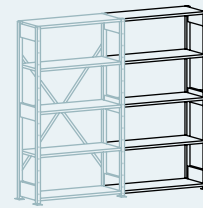

Load capacity of up to 1 tonne per pull-out shelf for heavy-duty shelves

SHELVING SYSTEMS

DRAWER STORAGE WALL

The best of both worlds: **LISTA drawer storage walls** combine the flexibility of a shelving system with the order and ergonomics of a drawer cabinet. They offer maximum use of space in all dimensions and allow for dust- and dirt-protected storage – ideal for large, heavy separate components or numerous small parts. Thanks to their versatility, they create clarity, protect stored goods and make organisation noticeably more efficient.

Use of space

Maximum use of space up to 3 metres in height thanks to the combination of drawer cabinets and shelves

Expandable

Flexible with the option to be expanded at any time thanks to the modular design of different cabinet and shelving elements

An all-rounder

From drawers to vertical pull-outs, all elements can be combined

Robust

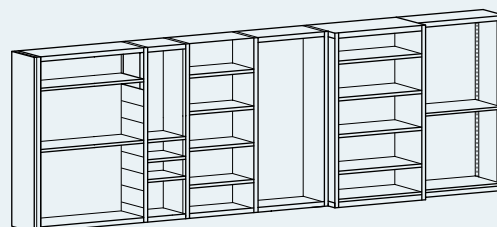

Heavy-duty pull-out shelves with a load-bearing capacity of up to 350 kg and 5.5 tonnes of load capacity per shelf unit

ELECTRONIC ACCESS CONTROL SYSTEMS

With our state-of-the-art, electronic **LISTA access control systems**, we are rethinking warehouse management – delivering security, efficiency and transparency. Tools and materials are protected at all times and be tracked with precision. The intelligent **LISTA E-Control** software enables all access rights to be managed centrally and documents every storage and retrieval transaction. This creates maximum clarity, full control and smooth processes – precisely tailored to the respective requirements.

Access levels:

LCC (LISTA Cabinet Control) – release of the housing

LDC (LISTA Drawer Control) – release of individual drawers

LPC (LISTA Parts Control) – release of individual compartments

Protected

Prevents unauthorised access and reduces material loss

Transparent

Ensures complete tracking and transparency

Efficient

Avoids long search times thanks to LED indication of storage locations

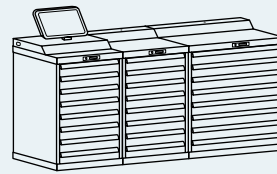

Productive

Increases uptime and enables lean production

STORAGE LIFTS

The **LISTA automatic warehouse lift systems** take efficiency to a whole new level – for optimal use of space, time savings, inventory control and maximum ergonomics. Variable in height, width and load capacity, LISTA lift systems can be flexibly adapted, controlled and, if required, interlinked to suit individual customer requirements. Even Euro pallets can be stored safely and conveniently in the LIFT P. LISTA stands for the highest quality, reliability and comprehensive service – from planning to installation and maintenance.

Optimum use of space

Exploitation of available space with up to 90% space savings thanks to vertical storage

Efficient

Time savings thanks to optimised storage processes, short picking times and fast removal

Multi-functional

The right lift for every requirement, with a variety of sizes and designs

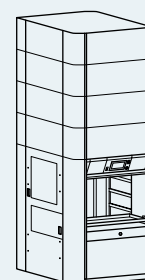

Smart management

Efficient management software compatible with conventional ERP systems

AGV / AMR

LISTA driverless transport systems (AGVs) and intelligent **autonomous mobile robots (AMR)** get your processes moving – safely, efficiently and fully automatically. From stored goods, assembly products or shipping items: The intelligent AGVs take care of internal transport and integrate seamlessly into existing ERP systems. The material flow is reliably automated – from separate component to pallet. This saves time, reduces errors and increases productivity sustainably.

Optimised performance

Maximum efficiency thanks to high load capacities and optimum utilisation

Smart automation

Intelligent system solution with central control from ERP

Precise control

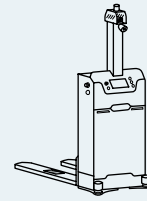

Millimetre-precision navigation for absolute reliability

Collision avoidance

Impressive safety levels thanks to state-of-the-art technology

PARTITION MATERIALS

The prerequisites for efficient and effective work are order, clarity and certainty. LISTA offers a wide range of **partition materials** specifically adapted to the internal dimensions of drawers in order to meet these requirements.

Flexible

The partitioning materials are flexible in their arrangement and can be adapted to new requirements at any time

Safety

Even small and delicate parts remain securely in place thanks to throughs or insert boxes

Maximum usable space

The partitioning materials are optimally matched to the drawers to maximise usable space

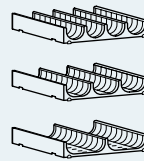

Certainty

INDIVIDUALLY ADJUSTED

LISTA makes workplaces as individual as the people who work there. Every detail can be designed according to your ideas – for solutions that suit you perfectly. Whether it's a personal colour scheme for your furnishings, stylish LED elements on the front or a table top that fits your task perfectly – you choose what you need. Complemented by tailor-made locking systems, the result is a workplace that not only works, but inspires.

Worktops

Resin with ESD protection, durable metal coating or sturdy beech wood – the right table top for every application

EDGE

LED lighting accents next to the drawers highlight the cabinet and make it an eye-catching feature in any workshop

Locks

Keys or electronic locks with PIN codes or RFID badges secure LISTA cabinets against unauthorised access

Colours

Whether you want a classic colour to match your existing furnishings or a special colour to add a highlight, anything is possible with LISTA products

CUSTOMER SUCCESS STORIES

ZÜND DIGITAL CUTTING SYSTEMS (UK)

Zünd, a leading manufacturer of digital cutting systems with over 35 years of experience, required a bespoke workplace solution for its move to Actua House. The challenge was to create a space that supports efficiency, flexibility and scalability. LISTA was chosen as a partner to meet Zünd's specific requirements with adaptable and robust storage solutions.

MAIN GOALS

Space utilisation

Optimised space utilisation for teamwork and collaboration

Efficiency

Storage systems for efficient management of inventory, parts and tools

Ergonomics

Ergonomic design to improve working conditions

Integration

Seamless integration of technology to support modern machines

“

LISTA systems have significantly improved our workflow – with better organised tools and accessible inventory. The ergonomically optimised rooms have increased both productivity and employee satisfaction.

”

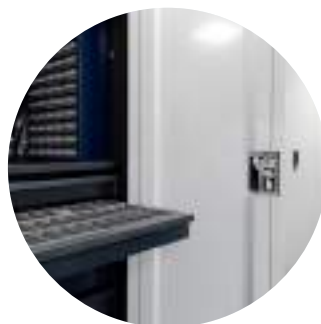

HIGHLIGHTS

Mobile drawer cabinet

Workbenches with universal superstructures

Drawer storage wall with hinged doors

Stable multiplex board with separate mat covering

CUSTOMER SUCCESS STORIES

AUTOHAUS NIX (DE)

Autohaus Nix, one of the largest Toyota dealers in Germany, wanted to renovate the workshop at its main location in Wächtersbach and bring it up to modern standards. The workstations were to be ergonomically and clearly arranged for the employees and offer efficient functionality. In order to provide the employees with optimal support in their daily work, the concept points below were taken into account and were the focus of the planning and implementation.

MAIN GOALS

Direct media supply

Electricity and water connections have been strategically placed to facilitate work on the vehicles

Optimal tool storage

LISTA's modular products optimise space and allow easy access to all tools

Cleaning facilities

Washing stations and waste disposal points have been integrated into the workshop to ensure cleanliness

Short walking distances

The workstations and tools were arranged so that employees could move quickly and efficiently between stations

“

The name NIX stands for reliability and automotive diversity. Optimal service and maximum customer satisfaction are our top priorities. With our new workshop equipment from LISTA, quality is immediately apparent to customers and employees enjoy optimal working conditions.
